

MOBILIZE RS-601 RESCUE STRETCHER

Product Code: ATERP1010

Model: RS601

MOBILIZE RS-601 RESCUE STRETCHER

Feature:

The Stretcher is fabricated from a special plastic grade which is both flexible and durable. Securing straps with steel buckles are sewn onto the stretcher through brass grommets which contribute to the strength and durability. This stretcher is functional in the desert or jungle. It will not break even at -49°C. can be used for horizontal or vertical lifts.

The original and still the solution for confined space, high angle or technical rescue, and traditional land based applications; this stretcher is a revolutionary design which provides outstanding patient protection and security. It comes equipped for hoisting by helicopter in horizontal position or hoisting in vertical position in coves or industrial confined spaces. When the patient is packed, the stretcher becomes rigid. The durable plastic provides protection for the patient while allowing extrication through the most demanding confined spaces. The stretcher is rolled for storage in a tough cordura backpack which is included with the system. The system ship at 9 Kg. and comes complete for most applications.

SIZE (L X W X H)	SELF WEIGHT	LOAD LIMIT	GROSS WEIGHT	LIFT TYPE
205 X 84 cm	9 Kg.	159 Kg.	11.5 Kg.	Horizontal or Vertical

Think Safety... Think ABC
