

**Product Code:**

**Model:** KARAM INTERNAL SHOCK ABSORBING EXPANDABLE LANYARDS

**Approvals :** EN 355: 2002.

1. These Lanyards come with Energy Absorption feature incorporated within their core, they do not require any additional Energy Absorber Pack, hence are lighter in weight.
2. These Lanyards are ideal for use in conditions where there are chances of the user tripping over the Lanyard. The Elastic nature of the Lanyard reduces the actual effective length of the Lanyard thereby reducing trip hazards.
3. KARAM offers a wide range of Webbing Lanyards, having different configuration of connectors on the ends.
4. All KARAM Lanyards are also supplied with any other hook on special request.
5. Relaxed Length = 1.4m Expanded Length = 2.0m
6. All Lanyards with different combinations of connectors mentioned below are individually certified as per EN 355 : 2002.
