

## FIBER GLASS FIRE BLANKET

### **"Green Arrow" Fiberglass Fire Blanket**

|                        |  |
|------------------------|--|
| <b>Material</b>        | : Fiberglass fabric with special treatment |
| <b>Thickness</b>       | : 0.4mm                                    |
| <b>Max temperature</b> | : 550° C                                   |

The special treatment on the fabric reduces fiber dust, removes weaving additives and minimizes possible skin irritation. This fabric is stress relief for general purpose welding blanket and is totally asbestos free. It is mainly used in fires involving flammable liquids and small fires in the kitchen.

Size: 1 meter wide x 50 meters or customize available
