

OIL PADS - WHITE

MELTBLOWN, OIL ONLY NON BONDED PADS

- Model: 286XMBWP
- Weight 286 gsm*
- Absorbency : 78 Litres | 21 US Gallons of oil
- Base Fibre- Polypropylene

With a fabric weight of 286 gsm there are 100 pads in the bale, which is half the number when compared to the lighter weight 165 gsm 200 pad count version, and as a result offers a heavier per square metre product. The lack of sonic welds makes this pad not as strong and more prone to short, fine fibres separating from the surface although the lack of sonic welds usually makes it more absorbent when compared to the same sonic bonded weight pad.

There are 100 pads in a bale with each pad measuring 40 cm by 50 cm. The pads can be supplied in either a rigid cardboard box or a clear plastic bag.

Key Features

- ❖ The pad is made from a single layer of meltblown fibres.
- ❖ Great value and reliable performance.
- ❖ Made from high quality polypropylene
