

OIL SOCKS - WHITE

SPUN-BOND OIL ONLY SOCKS

- Model: 20WS8120-SB
- Absorbency : 70 Litres | 18.5 US Gallons of oil
- Base Fibre : Polypropylene

These socks are 1.2 metres in length and eight centimetres in diameter. There are 20 socks in the branded cardboard box.

The socks feature a tough spun-bond outer sleeve that has a durable heat sealed seam running its entire length. This tube is then filled with an absorbent polypropylene core that is made from recycled material. This core will absorb just oil-based fluids. The absorbent core is secured into the sleeve at each end with a durable metal clip. The spun-bond outer sleeve makes these socks very strong even when containing absorbed fluid; they are also a 'no-lint' product. These mean they will not shed any loose fibres. The socks are very flexible which allows them to conveniently mold to any uneven surfaces.

Key Features:

- ❖ Strong spun-bond outer sleeve
- ❖ Meltblown polypropylene core
- ❖ Clipped ends
